

## Industrial action by doctors on Thursday 21st June 2012

You may have heard that doctors have voted to take part in a day of action in protest at government changes to NHS pensions. This action is due to take place on Thursday 21<sup>st</sup> June.

### Why we are taking action

This is the first time in nearly forty years that doctors have taken industrial action. We are doing so reluctantly and only after every other avenue to bring the Government back to negotiations has been tried. We are not seeking a better deal or special treatment for doctors, but a fair deal on NHS pensions. If you would like more information on the reasons why doctors are taking action please visit [www.bmaaction.org](http://www.bmaaction.org).

We are sorry if you will be affected by the day of action, but please rest assured that patient safety on the day will be our priority and if you feel your problem is urgent you will be seen.

### This practice

All of the doctors in this practice are participating in the industrial action. Even though we are taking part in industrial action patient safety will be our absolute priority so all doctors will be in the practice as usual and all emergency care, or other care that patients urgently need, will be provided.

### If you require urgent or emergency care on 21st June:

- If you think you need to see a doctor for something that is urgent or is an emergency, please call the practice on our normal number (01382) 462 222. We will speak to you first to see if your problem is urgent. As would usually be the case, we may ask you over the phone to describe your symptoms so that we can judge whether or not you need to come in to the surgery. Surgery opening hours will be the same as usual **0800hrs to 1800hrs**.

### Routine appointments on 21<sup>st</sup> June:

- If you already had a routine appointment booked for 21<sup>st</sup> June this will have been cancelled and rearranged for the next available appointment. **We will not be making routine appointments for other days on 21<sup>st</sup> June, but you will be able to do this, as usual, before or after the day of action.**

### Nurse appointments

- Although only the doctors in the practice are taking industrial action, routine appointments with nurses in the practice have also been cancelled for 21<sup>st</sup> June.

### Prescriptions

- Urgent prescription requests will be processed, but due to the industrial action, we will not be dealing with routine prescription requests. You will still be able to hand your routine prescription in on 21<sup>st</sup> June but it will be dealt with after the day of action.

### Hospital appointments

- Many hospital doctors will also be taking industrial action. This is likely to involve the postponement of routine operations and non-urgent appointments. However, anyone whose condition requires urgent care or investigation that day will be dealt with. Which cases are being postponed is being decided through advance planning between doctors and the hospital. If you are affected the hospital should contact you. However, if you are in any doubt please contact the hospital directly.
